Village Gossip

Mayor Mac Suggests "Old Time" Welcoming Group And Do It Right

Our chamber of commerce gang this week entertained a visiting delegation with a trip around town and a sociable glass of Roy Bradley's swell lemonade, with our Pioneer Mother hostess the members of the wagon train. The vote seemed to be unanimous that if Upland lemons make that kind of lemonade the Lemon Growers are more than justified in increasing their plant.

Why not organize a group of pioneers—in costume and character—get an old covered wagon, and on occasions such as yesterday, tow it up behind the Pioneer monument and receive our guests with proper atmosphere and ceremony, not neglecting to sluice their parched tonsils with our particular brand of our native lemonade. That's just plain southern hospitality.

Cheerfully yours,
Hiz Onner.

The Old Gray Mayor of the Village.

GREATEST SEASON OF LEMON PACKING WILL START SOON

More Fruit on Trees Now Than Ever, L. R. Bradley Says in Forecasting Work

MUCH FUTURE ACTIVITY

Weather, Market Conditions Good; Picking So Far In Year Light

The greatest season of lemon harvesting ever experienced here is just ahead for the Upland Lemon Growers association if present weather and market conditions prevail.

So far in 1934, picking and packing of lemons has been lighter than usual, the crop not maturing as fast as usual. This has resulted in an unusually heavy crop on the trees at present.

L. R. Bradley, association manager, said that never before had the lemon groves been so heavily loaded. The present cool atmosphere induces faster growth and a few more weeks' continuation of weather similar to this week's will result in very considerable harvesting activity.

Approximately 800 cars of lemons have already been shipped this season from the Upland district, which total is far less than the usual car total to date.

Intoxication Cases in Big Increase
* * * *
Liquor Charges in District Listed

Number of arrests on charges involving liquor in Upland and Ontario from Jan. 1 to May 24, 1934, and Jan. 1 to May 24, 1933, are shown in the following:

	Upland		Ontario	
	1934	1933	1934	1933
Intoxication	26	10	114	38
Drunk Driving	2	1	18	5
Total Liquor Cases	28	11	132	43

These figures do not include persons booked as "distrubing the peace," which cases frequently are due to liquor.

During the 12 months of 1933, a total of 25 persons were arrested on intoxication charges in Upland. During last year, Ontario arrested 126 persons on intoxication charges.

These figures were obtained from the office of Chief of Police J. F. Sawyer and Judge George R. Crane in Upland and from Judge J. F. Hamilton in Ontario.

Due to the great increase in the number of intoxication cases, local and state wide efforts are being made to obtain local option and more control over the sale of liquor.

A perusal of the figures for 1934 reveals that in the first five months of this year, the number of liquor cases exceeds the total for the 12 months of 1933. Many of the 1933 liquor arrests came after legalization of 3.2 per cent beer, records reveal.

CAR SUSPECT HELD AS POLICE CALLED

Robert Reese Nabs John Slanus As Motor Is Started; Sentence Suspended

Responding to the hum of the motor in his automobile parked outside his business office, Robert Reese, Ontario car dealer, caught John Slanus, at 9:30 o'clock last night and forcibly ushered him to the telephone. Ontario police were notified.

Slanus rallied his strength and freeing himself fled from his captor. He, however, virtually ran into the police who were rushing to the garage and saw the man escape from Reese.

Before Judge J. F. Hamilton this morning he plead guilty to a charge of tampering with an automobile without the owner's consent and was given a suspended jail sentence of six months.

Due to Reese's man-handling of the accused, the case is looked upon by police as one of the most unusual in recent years.

UPLAND MUST BUY ITS SHADE TREES

Forestry Department Can Not Aid City In Improving Local Streets

Upland will have to buy its trees the city being unable to get them from the state forestry department, Richard G. Manley, city service manager, was advised this morning.

In the proposed tree planting program, the city council had hoped to get aid from the state department. A new law prohibits the trees being given, the letter said.

Within a short time, the city will obtain shade trees and set them out. At least 100 will be set out and the city will continue this activity each year, thus gradually replacing the trees that have been removed in recent years.

Upland Men Rallying to Aid of Woman's Group With Program Mystery

Everyone in the district appreciates the work of the Upland Woman's club in the past and today many are showing that appreciation by purchasing banquet tickets at $5 per plate for the event in the clubhouse next Thursday.

While no complete report of the progress of ticket sales is available, individual members of the committee in charge report an interest that indicated a large attendance.

Trout will be the principal item on the dinner menu and James Foley, widely known poet and humorist, will be one of the principal characters in the program.

An element of mystery, however, surrounds the program and entertainment of an unusual type is forecast.

Purpose of the "appreciation dinner" is to create a fund for the Woman's club that will to some extent relieve the financial stress on the organization.

ALTER DESCRIBES STATE'S FINANCES AS DEFICIT LOOMS

Loss of Income From Public Utilities, Banks One Cause Of Condition

LIONS HEAR ADDRESS

Assemblyman Points Out that $193,000,000 Needed In New Revenue

Decreased expenditures, or increased revenue or bankruptcy for the state of California—this picture was presented by Hobart R. Alter, assemblyman, at the meeting of the Upland Lions club in the Red Hill Country club yesterday noon.

In presenting the alternatives as he concluded his address, Mr. Alter stressed the importance of keeping the sales tax and called upon all good citizens to be prepared to overcome an effort for its repeal.

For operation of the state government from 1935 to 1937, $193,000,000 of new revenue must be obtained, he said, in giving in detail the state's financial situation. The sales tax will produce about $100,000,000 of this total. Other special taxes will return about $10,000,000, leaving at least $83,000,000 for the state legislature to provide for at the sessions during 1935.

On the per capita basis, Mr. Alter listed the cost of government and made comparisons as follows:

	'23-'25	'31-'33	'33-'35
General	$4.21	$ 5.81	$4.86
Educational	5.81	7.11	6.11
Highway	5.11	10.14	8.21

Increase over 10 years ago for the departments are general, 15 per cent; educational, 5 per cent, and highway, 60 per cent.

Mr. Alter declared that 42 per cent of the state's total revenue is spent by the highway department. Scheduled to be spent on the highways in the two year period, 1933 to 1935, is $107,000,000.

California's budget is figured for a two year period and when the current biennium comes to a close, the state treasury will have an estimated deficit of $31,000,000. To offset this deficit, to meet costs of the government and to maintain the educational system and all state institutions as at present, the legislature must provide for an increased income of $193,000,000, the officials declared.

One of the principal reasons for the depleted financial state treasury is a shrinkage of revenue from those sources that pay on the basis of income, Mr. Alter said.

Public utilities and insurance companies, which pay on the basis of their gross income contributed $82,000,000 to the state in taxes during 1929-1931. In 1933-35 their tax to the state will be $65,847,000, a decrease of about $21,000,000.

Banking corporations pay franchise taxes to the state and in 1929-31 these firms paid $20,000,000, their total payments dropping to $8,000,000 for the current biennium.

The legislature has control over only a portion of the state's expenditures, many items being "fixed charges."

Fred E. Draper introduced the speaker and President Glenn M. Atwood was in charge of the meeting. Mr. Draper was named alternate delegate from the club to the Lions district convention in Santa Cruz next month.

Meek heaved the shot 51 feet, 8 inches. Young, Riis high athlete, scored first, his record being two feet further than Meek's. John will be greeted up north by his brother Dave Meek, a Bear athletic star, formerly of Chaffey.

Which Are Worst—Titles or Pictures

As bad as many of the movies are these days, it seems that the fellows who title the pictures are trying to outdo the pictures themselves when it comes to suggestive and sensational titles. One would think titles would keep patrons from going to see them—but they don't in thousands of cases. And—sometimes it is difficult to decide which is really the most obnoxious, title or picture.

For instance, in the movie ads we see Earl Carroll's "Murder At the Vanities" which suggests a most elevating (?) show at which to spend an evening, while George White's "Scandals" should attract (?) those who are looking for something uplifting. "Merry Wives of Reno" ought to give some great ideas to those who are in a hurry to get a divorce, and most any "Palooka" would enjoy it if "Death Takes a Holiday;" in fact, they would be satisfied, no doubt, to have death take several holidays.

"Fugitive Lover" and "Let's Me Ritzy" sound very attractive to those who might be seeking a soothing atmosphere. Can you imagine a woman saying "This Man Is Mine" to "Jimmy, the Gent" with "Three On a Honeymoon?" If the "Fugitive Lovers" are "Looking for Trouble" they can no doubt find it in the "Journal of a Crime" or in the "Shadows of Sing Sing."

"Come On Marines" to the "Wonder Bar" or go down and raise "Thunder Over Mexico." It may be "All Quiet On the Western Front," but "Little Women" should not go "Where Sinners Meet" or stick around when "We're Not Dressing." But if "You're Telling Me" about the "Meanest Gal In Town" please don't mention her name. "Heat Lightning" should be plenty hot and speedy for those looking for something of that kind. "I'll Tell the World" that "20 Million Sweethearts" are too many, but apparently some of the movie stars are striving for that record when it comes to husbands and wives. Perhaps they're in "Search for Beauty" or "Looking for Trouble," which they can easily find by being one of "Three On a Honeymoon." "Two Alone" should be the motto of husband and wife, for if "I Believed In You" as a "Gallant Lady" I would still be true even though I knew you were only "Half a Lady."

Do you suppose the "Wharf Angel" is the "Fighting Lady" and finds it "Easy to Love" "Mr. Skitch?" If so—beware! For—if "She Made Her Bed" "Where Sinners Meet" it will simply be too bad when "The Trumpet Blows." Men have been looking for "Success At Any Price" "Ever Since Eve," but "I'll Tell the World" that "Twin Husbands" are just one too many.

No matter what kind of pictures the studios produce, they "Keep 'em Rolling" into the movie houses, but "The Fortune Teller" saw one worth while if she took in "Melody In Spring." The "Registered Nurse" earns a trip through the pearly gates to the "Upper World," but the fellows who produce the rotten movies apparently "Take the Stand" that they are going to get the money even if it sends them "Bottoms Up" to the lower regions—from whence no traveler returns and where he will find plenty of his own kind.

Eight Hundred Thousand New Homes a Year

According to the Research Department of the NRA an annual building volume of 800,000 residential units it required to supply the need for new dwellings. This takes no account of replacement of existing sub-standard homes, and until these are replaced the needed volume could easily be at the rate of 2,000,000 structures a year.

A building revival could fall far below these high limits, and still be the most powerful of factors in fighting depression. Perhaps no dollar we spend does more work, in stimulating domestic trade and providing employment, than does the building dollar. Surveys show that 37.3 per cent of all the money spent goes to labor at the site—to excavators, graders, carpenters, masons, plumbers, plasterers, etc. The balance of 62.7 per cent goes to buy needed materials and supplies—and the great bulk of that is paid to workers in the plants and factories manufacturing them. In general, about 80 cents out of each dollar goes to labor, directly or indirectly.

The heavy industries—those supplying such manufactures as steel, lumber, cement—were hit hardest by hard times. They are facing the gravest difficulties in recovering from them. Spurring construction would do much to solve a legion of our our troublesome problems.

What is true in the lines of construction material is also true of practically everything we buy. The greatest cost going into dry goods, groceries, drugs, clothing and other items is for labor. From the initial cost of producing commodities to the time they are finished manufactured articles or food items it is a continual line of cost for labor. This is as it should be. If it were not for this condition there would be much less opportunity for men to earn a livelihood. In the newspaper and commercial printing industries more than 80 per cent of the cost of production is for labor. Few industries spend as great a per cent of their total cost for labor as do these.

American business in generai is better than it was—and is still gaining. It is by no means what it should be, but a noted improvement in conditions is apparent. People are buying more than they did for two or three years—they are getting things they need and many are going beyond the necessities and buying luxuries. A steady gain from now on will mean much toward getting things back to normal. People have come to realize more than ever that it takes spending to make good times. You buy from me and I can buy from you is what it takes to keep things going. If we both do without the things we need and want we are both the loser—and this throws people out of employment on account of lessened demand. If you buy and I buy we are able to live like Americans should and we help furnish jobs for other people who like to live in comfort also. Things have worn out in the home and there are other things which should either be repaired or replaced by new ones. It's time to do that now—it's the only way to bring back prosperity.

"High hurdlers are setting new records, but none yet approaches Roosevelt in getting over obstacles," says the Hemet News. And the latest "obstacle" for the President to "get over" are Darrow and some other things in regard to the NRA report which are rapidly lining the people of the country on both sides.

About the only thing we can do about the weather if we don't like it is to criticise it. And that doesn't help.

Cooperation of farm bureaus and commercial pest control operators makes possible the new service. Citrus growers can decide about operations for pest control more advantageously if they know of the future weather conditions.

WHY SHOULD YOU BUY THIS POPPY?

Disabled Veteran-Made Poppies Will Be Sold Tomorrow On Upland Streets

Why should I buy a poppy tomorrow?

That question is well answered in an essay submitted by Carrie Tessin Baade of Napa, who won first prize in the state-wide contest conducted by the American Legion Auxiliary.

Members of the Upland unit, directed by Mrs. W. J. Larkin, and a number of poppy children will sell the red memorial poppy on the streets of Upland tomorrow. The poppies were made by disabled World War veterans and proceeds from the poppy sales will be used for those veterans and in local welfare work for disabled veterans and their dependents.

A few excerpts from the prize essay are given:

"Yes, I'll buy a poppy, sister. I could not pass them by, these flowers of memory, fashioned by fragile hands made useless, in my country's name, for all else but their manufacture. . . ."

"They speak of a nation calling her sons to arms to defend her principles and her people.

"They speak of gallant boys who departed from battle with songs and laughter on their lips, never betraying the ache of hearts made heavy with the pain of parting from home and loved ones.

"They speak of secret tears and lurking apprehension in mothers' eyes, and mothers' heads held high in courage and sacrifice and hope.

"They speak, in the crimson of their petals, of piteous wounds, inflicted upon distant battlefields, of beds of sleepless tortured healing and of death.

"They speak of firesides desolate with grief and sorrow, of family circles forever torn as under, of heads bowed in mourning, of wounded hearts that cannot heal."

The adults aiding the children in the sale of the poppies will be Mrs. W. J. Larkin, Mrs. Thos. E. Howarton, Mrs. I. J. Linkey, Mrs. L. H. Cortright, Mrs. Herbert Metz, and in Cucamonga, Mrs. Frank Freeman.

Long Beach druggists report a 25 per cent loss in business, while water front cafes in Wilmington and San Pedro are folding up daily.

Two men met at the public library and fell into conversation. "The dime novel has disappeared," remarked one. "I frequently wonder where it has gone."

The other, who knew something of literature in its various phases, answered: "It's gone up to $1.90."

Why the Sudden Change to Liquid Laxatives?

Doctors have always recognized the value of the laxative whose dose can be measured, and whose action can be thus regulated to suit individual need.

The public, too, is fast returning to the use of liquid laxatives. People have learned that a properly prepared liquid laxative brings a perfect movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The wrong cathartic may often do more harm than good.

Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly *safe*. Its laxative action is based on senna—a *natural* laxative. The bowels will not become dependent on this form of help. Dr. Caldwell's Syrup Pepsin is at all druggists. Member N. R. A.

whose performance in "Tess of the Storm Country" will long be remembered.

The story concerns the life of a young mountaineer girl portrayed by Miss Hepburn, who is considered a little devil and wild cat, with hatred in her heart for all men until she fell in love with one and found happiness. There will be continuous performances Sunday from 2 to 11 p. m., including a carefully selected group of short subjects.

"Anthony Adverse" Has Heavy Demand At Public Library

Hervey Allen, author, was given a party recently by the Perkins Goodwin Co., and the Ticondeoga Pulp & Paper Co., to celebrate the publication of the four hundred-thousandth copy of "Anthony Adverse." The book weighs almost four pounds and that means 1,600,000 pounds of paper used for these 1200-page volumes. Thus the paper companies as well as the author and publisher are getting a share of the proceeds.

The ninety-second reservation was recently put on the one and only copy of "Anthony Adverse" in the Upland Public library: "Too bad the library can not afford another four pounds," says the librarian.

Woman's Club Closes Current Year with All-Day Meeting

Meeting for the final session of the club year, members of the Upland Woman's club gathered Tuesday in the club house, the several events occupying the major portion of the day.

The usual meeting of the Arts and Crafts section, Mrs. E. O. Bowden chairman, was held in the morning with an enjoyable contributed dish luncheon following at noon.

With Mrs. S. M. Jessup presiding, the regular club meeting was called at 2 o'clock and although only a business session was planned with the time being devoted mostly to various reports, so interesting were the subjects presented that they really constituted an enjoyable program.

At the beginning of the meeting Miss Ethel Leeke, director of the club chorus, led the singing of the San Bernardino county club song and Mrs. Clyde Whiteley, recording secretary, read the regular minutes.

Annual reports of officers and committee and department chairmen were made, including statement of the club's financial condition, the success during the year of the finance committee and the various club activities.

Comprehensive reports of the state federation convention held in Riverside were made by the delegates, each one stressing the particular phase of the convention that most appealed to her.

Dr. Lillian F. Baxter, chairman of juvenile delinquency for the Southern district, told of the action taken at the convention to secure the placing of a woman on the state prison board and to make the Tehachapi prison a woman's institution. She also presented some of the high lights of addresses analyzing the crime situation and advocating steps to take the profit out of war.

Mrs. Clyde Whiteley told of the move to secure a code for working girls, establishing a minimum wage. She revealed that hundreds of thousands of women are doing domestic service without pay other than their room and board.

An interesting report of an address on literature and music by Edward Howard Griggs was made by Mrs. Geo. S. Foster.

Mrs. Alfred R. Kipp, district federation chairman of international interests, lauded the action of the convention in sending a message to the president and to congress urging action on the Nye bill which would control the making of war munitions.

With Mrs. Florence Dundas at the piano, Miss Leeke led the chorus in singing "Old Carolina" and "Big Brown Bear."

Announcement was made by Mrs. O. A. Thompson of the benefit dessert bridge to be held Tuesday, May 29, and Mrs. J. W. Shepperson announced a gift of $5 presented to the club by her neighborhood social club.

As an expression of the appreciation of the club for her services during the past year and of pleasure that she is again to serve as president during the coming year, Mrs. Clyde Whiteley presented Mrs. Jessup with a lovely basket of flowers.

With Mrs. George S. Foster officiating, the recently elected officers and directors were impressively installed, those taking office being Mrs. S. M. Jessup, president; Mrs. Clyde Whiteley, vice-president; Mrs. John Scott, recording secretary; Mrs. C. W. Hawks corresponding secretary, Mrs. F. H. Manker, treasurer; Mrs. Royal V. Ward, auditor, and Mrs. Alfred R. Kipp, parliamentarian. The directors are Mrs. F. A. Dickley, Mrs. Harry P. Brown, Mrs. L. R. Bradley, Mrs. Blanche M. Loch, Mrs. Herbert W. Metz, Mrs. John W. Shepperson, Mrs. O. A. Thompson, Mrs. H. M. Guy and Mrs. J. F. Sawyer.

Mrs. Jessup brought the meeting to a close by calling a board meeting for 9:30 Monday morning, June 4.

And His Name Was Jack

On the first day of the second semester in school, the little boys took their seats and waited until the teacher came down among them to get their names. The first to whom she came replied his name was Si.

"No," the teacher corrected, "you mustn't say Si. Say Silas."

Next she came to one who said his name was Tom.

Red Cross Chairman Tells of Aid Given in Major Disasters

"Typical of its outstanding service in all disasters the American Red Cross with the Chicago Chapter as the operating unit, met the emergency in the recent Chicago stockyards fire," A. L. Schafer, manager in the Pacific Area, advises Mrs. R. C. Norton, chairman of the Upland chapter. He says:

"First aid stations were set up immediately by the Chicago relief workers. These made 1,500 emergency dressings between Saturday afternoon and Sunday midnight.

"Scores of firemen with badly inflamed eyes were given treatment, thereby being able to remain at the fire-front.

"The Chicago Red Cross also established canteen service supplying sandwiches and coffee to more than 100 fire companies that remained on duty for 30 hours. Household goods will be awarded to the distressed families." Mr. Schafer further says:

"The residents of Pacific coast states know how speedily and effectively the Red Cross acts in disasters. Striking examples of disaster relief are found in the Southern California earthquake March 10, 1933; in the Montrose-La Crescenta flood in January this year, and in the devastating floods that swept Washington and North Idaho last December."

LOCAL OPTION AIM OF BALLOT EFFORT

County League Formed with Dr. Engle Member; Meeting Held In Ontario

San Bernardino county Local Option league has been formed with Dr. Irvin A. Engle the local representative. Purpose of the league and the goal of dry organizations in the state is to have placed on the November election ballot a proposed constitutional "local option" amendment.

If the amendment is adopted, Upland or any city, precinct or county can determine if sale, transportation and manufacture of liquor will be permitted within its area.

In Ontario Wednesday night, nearly 200 people met in the Bethel Congregational church to hear of the county organization and to take steps to perfect the Ontario unit of the league. A local organization is to be effected in each community with an Upland unit expected to be formed soon.

Among the speakers at the Ontario meeting was Rev. Shirley Shaw, who presented the definite plan of organization and who told of a closeup view of some beer gardens in the Ontario district. Other speakers were Mayor Leland Davidson, who said the city officials at present had no voice whatever in liquor control; Judge J. F. Hamilton, who revealed a great increase in intoxication during 1934; Rev. Hirschel Griffin, Captain Nelson of the the Salvation Army; Roy Newton, civic leader.

If the local option amendment carries, control of liquor will be with local officials—if residents so desire it. Each community can hold an election to determine if the people want the board of equalization control as at present or control by the council and police.

CHEVROLET Engineering facts prove it. Experience in building nearly ten million cars confirms it. And the record of over 3,000,000 Chevrolet Six owners removes any shadow of doubt about it: *The only way to get real economy in a low-priced car is to insist on SIX cylinders and OVERHEAD valves.*

SIX cylinders—*no more!*—because *extra* cylinders mean *extra* cost for gas, oil, upkeep and parts. OVERHEAD valves—*nothing else!*—for the same good reason that airplanes use them. And speedboats. And racing cars. They get the MOST power out of the LEAST gas. That's why overhead valves are the choice of leaders—and champions.

Merchants Drop Wild Game to Covina Nine

Because they made many errors, Upland Merchants lost to Covina, 8 to 0, at Covina Tuesday night. Six runs were made by the Covinans in one inning as the local usually steady nine, went wild.

Jake Voth did his best in the box, but the support was so ragged his twirling had little effect on the score board.

Two dollars were awarded for all first prizes and $1.50 for all second prizes. Miss Flora Morley was also present. Two hymns were sung with the splendid Beulah college spirit.

At the Fannie D. Noe school the following prizes were awarded after a short program was given by a group of junior high girls:

At the Eighteenth Street school the fourth grade made excellent posters, but no compositions were written. The first prize was won by Charlotte McGruder, second by Ruth Griffith. Mrs. Freeman presented the prizes.

The Upland Union is much gratified by the fine work done in all the schools, Mrs. Freeman stated. "Although the W.C.T.U. is feeling the depression, as other organizations, they feel that work with the young people in informing them as to the effects of alcohol and other narcotics is the most important of all their work, and so voted to give the cash prizes as heretofore, even though some unions have decided to give pins. Surely this work is more needed than ever for protection of the young people."

AFTER YOU'VE LISTENED
TO THE CLAIMS OF OTHERS-
Investigate the SUPERIOR FEATURES of the Super Whipcord
America's most Distinctive TIRE
AT ORDINARY TIRE PRICES!

You'll find that Super Whipcords give you true streamline appearance, longer mileage, air-cooled protection for hot weather driving, a deeper, longer lasting non-skid tread, easier riding and steering, and greater protection against traffic bumps and blow-outs. Only the finest live rubber is used thruout, and selected long staple cotton, scientifically twisted, gives super strength to the carcass plies. Try Whipcords NOW--if you drive a new streamline design car, they will be in perfect harmony. If your car is an older model, you'll be delighted at the modern touch this distinctive tire will give.

SUPER-CUSHIONED PLIES . . .

Note the extra thick cushioning and breaker strips under the tread, the reinforcing around the bead, the cushioning between ALL PLIES from bead to bead, and the thick side-walls and tread. Note also the diagonal side-grooves which permit perfect road contact, help prevent "cupping" and increase traction and braking ease.

Those Spiral Ridges . . .
. . . protect the side-walls from side scrapes—lengthen tire life—make riding easier—beautify the Super Whipcord—and provide AIR COOLING that protects rubber and carcass from heat and deterioration.

Load Contouring . . .
Ordinary tire, shown by dotted line, squats when inflated to the shape indicated by the heavy line, straining the carcass. In the Whipcord, "squat" is built in. When inflated, it narrows slightly, and under load resumes its normal "Load Contoured" shape, with less carcass strain.

These and many other features will gladly be explained in detail at any of our stores—ask about them—remember them—and your next tires will be SUPER WHIPCORDS!

JUNE 12 DATE FOR BALL OPENER HERE

Upland Merchants Will Play In Regular Schedule During Summer

With the Upland Merchants representing the city and with the pick of the southland night ball teams to be the opponents during the season, play on the local ball diamond will commence regularly June 12.

In good pre-season form, the local nine has won most of the practice games and close followers of the diamond men believe this year's team will be the best ever on the local diamond. The old Upland Merchants team is the nucleus for the 1934 nine with former Lemon Growers added to the lineup.

Games will be played every Tuesday and Friday, with at least one game played here. A small admission will be charged to cover cost of providing lights and keeping the field in condition.
